Dr. R. Whiteman
SAMPLE(S) RECEIVED: 7-29-96
LAB REFERENCE NO: LAR
INVOICE NO: 38837

LABORATORY SERVICE PERFORMED: Microbiological Analysis of Four (4) Filter Samples

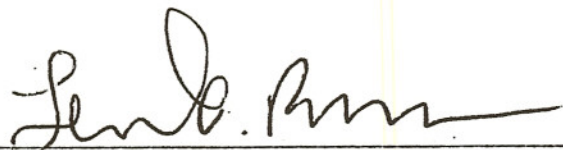

RESULTS

See Table 1, attached.

CONCLUSIONS

The bacteria isolated from these samples are common environmental organisms often found in metalworking fluids. None of these bacteria are pathogenic per se and therefore they do not represent any overt human health hazard.
