

**Pollution Prevention  
for the 21st Century**

**PAINT GUN WASHER TECHNICAL BULLETIN:**

**ZYMO® Models 150-180**

**Description**

The paint gun washer cabinets are used in conjunction with either a water-based non-flammable, neutral pH cleaner called Surfzyme® HD or a non-flammable, green solvent called Surfzyme® Penetrant. Paint gun washer cabinet systems are manual or automatic with a pneumatic operation to enable use in ATEX zones.

**Key Properties**

- ✓ Quality stainless steel construction
- ✓ All ATEX approved.
- ✓ Recycling of cleaning fluids for minimization of operating costs and waste disposal
- ✓ Automatic or manual operation
- ✓ Store Parts: Wash guns, tools and empty paint cans
- ✓ Models 170 and 180 can be used with a solvent distillation unit to reclaim fluid and reduce costs / waste disposal
- ✓ Optionally custom designed jigs and fittings to accommodate spray gun and component parts cleaning
- ✓ No Volatile Organic Compounds (VOC.s) with water-based and solvent cleaners
- ✓ Surfzyme® HD and Penetrant are Non-hazardous, non-corrosive, neutral pH and NSF approved
- ✓ Easy to install with complete instructions provided.
- ✓ Optional ZYMO/ERIKS can instruct operators on use and maintenance
