Cleaning Equipment

ZYMO Europe now provides a full range of solvent-free cleaning equipment, cleaners, services and customized solutions for the toughest cleaning challenges.

⇒ Manual Units (Model 30)

- 24V, Double-walled
- Heated and mobile

⇒ Automated
⇒ Spray
Cabinets
(Models 75)

⇒ Ultrasonic Baths (Models 200-240)

⇒ Paint Gun Cleaners (Models 150-190)

- Solvent & Water-based
- Cleaner recycling available

Company History

In 1995, ZYMO—"The Parts Washer" was developed in response to new Air Pollution Regulations targeting solvent cleaners while using bioremediation to create positive waste reduction. In 1996, ZYMO was found to be the most effective product in an independent evaluation organized by the

Custom Cleaning

ZYMO Europe offers a unique Custom Cleaning Service which provides solutions to industries hardest cleaning challenges. *With world experts in chemistry, microbiology and maintenance engineering, ZYMO can meet any challenge. Go ahead challenge us!!*

ZYMO Europe has a 2 Step process for development of customized cleaning:

STEP 1: Initial screening of potential cleaning agents using customer parts contaminated with dirt and residues requiring removal.

STEP 2: Development of a customized cleaner, method and cleaning process where the client has no existing equipment or requires new or specialized equipment to perform the job effectively.

Custom Cleaning Service

ZYMO also offers contract cleaning where the client decides to outsource the activity. Applications range from cleaning glue nozzles, centrifuges, moulds or parts contaminated with carbonized materials or coatings.

Preventative Maintenance

Preventative maintenance is a key part of any maintenance operation ensuring that when critical manufacturing parts breakdown that the essential cleaning processes are up and running. ZYMO Europe Inc. offers a preventative maintenance service for all equipment sold, including the ability to meet HSE guidelines for Legionella control for water-based systems. *The service covers inspection of equipment, work area, cleaning the machine and testing whether the*

Non-Solvent Cleaners

ZYMO Europe Inc. offers a wide range of *highly effective, non-solvent cleaners* for improved worker safety all which can be used with bioremediation for positive waste reduction, while *meeting EEC Regulations on solvent emissions 1999/13/EC. More than 3 solvent parts washers at a site may create non-compliance.*

All cleaners and microbes are NSF certified as food safe.

⇒ Surfzyme HD-1 and HD-2

for use in manual parts washers and ultrasonic baths. Part #50020-0020 (HD-1) & #50025-0020 (HD-2)

⇒ Surfzyme HD-3—Low Foam

for use in automated spray cabinets and ultrasonic baths. Part #50030-0020

⇒ Surfzyme CDC for

carbon deposit removal and for other hard to remove residues. Part #50050-0020

⇒ Surfzyme Penetrant—a very unique non-

solvent, recyclable cleaner for solvent paints. Part #50100-0025 (drum) & #50100-0000
